INDUSTRIAL PROCESS

Gli inceneritori EXCE AN sono forni discontinui a camera statica con caricamento dall'alto. Sono adatti allo smaltimento di animali interi, di scarti di macellazione e di rifiuti organici in generale e sono costruiti in accordo con le Regolamentazioni Europee (EC) no. 1069/2009, (EU) no. 142/2011

EXCE AN incinerators are discontinuous static ovens, top loaded. They are suitable for incineration of whole animals, slaughtering waste and organic remains in general. Exce AN oven has a vertical post-combustion chamber, fabricated to respect working parameters imposed by current antipollution regulations such as EC No. 1069/2009 and (EU) No. 142/2011

Notre incinérateurs de déchets mod. EXCE AN sont de fours discontinus avec une chambre statique, top chargé et approprié pour l'incinération des animaux entiers, des déchets d'abattoirs et des déchets organiques en général. Les fours Exce AN sont construits en conformité avec : (EC) No 1069/2009 et Règlement (EU) No. 142/2011

Unsere Abfallverbrennungsanlagen EXCE AN Modell sind diskontinuierliche Öfen mit statischer Brenn-kammer und sind für die Verbrennung von ganzen Tieren, Schlachtabfälle und organische Abfälle geeignet. Unsere Öfen EXCE AN Modell sind in Übereinstimmung mit der EU-Verordnung 1069/2009 und der EU-Verordnung 142/11 hergestellt worden.

Los Incineradores de residuos mod. Exce AN son hornos discontinuos con una cámara de combustión estática, adecuados para la incineración de animales enteros, residuos de masacre y residuos orgánicos en general. Nuestros hornos mod. Exce AN están contruidos de acuerdo con el Reglamento de la UE 1069/2009 y el Reglamento de la UE 142/11.

As incineradoraes Exce AN são fornos descontínuos a câmara estática com carregamento do alto. São apropriados para o escoa-mento de animais inteiros, de resíduos de matadouro e de resíduos orgânicos em geral. Exce AN fornos são construidos em conformidade com os Regulamentos (EC) no. 1069/2009, (EU) no. 142/2011

Bu EXCE AN Yakma fırınları aralıklı olarak statik üstten yüklemeli fırınlardır. Bunlar tüm hayvanlar, kesik hayvan atıkları ve genel olarak organik kalıntıların yakılması için uygundur. Her EXCE AN fırını yanma odası gibi dikey bir ikincil hazneye sahiptir ve geçerli çalışma parametreleri ile çevre kirleyici önleyici yönetmeliklerine göre imal edilir örneğin (AT) No.1069/2009 (AB) No. 142/2011.

WHY CHOOSE AN INCINERATOR MODEL EXCE AN?

Exce An Incinerators are entirely made in Italy with 100% Italian materials

Built so to respect European working parameters

Waste volume reduced by 99%

Various types of fuels can be used:
Diesel, Natural gas, LPG

Easy installation and maintenance

Optional wet flue gas treatment system

Compliance with European emission standards

Automatic loading systems and ash discharge systems can be added the installation

Fully automated operation managed by control panel so that to avoid any problem or damage
